

Cavemen Have No Style

Cavemen have no style.
They always wear those furs.
And how about that club?
Why can't that be hers?

They're not as diverse as we,
'outfits sweet as honey'.
We each have a phone
with cover, id, and money.

And we're personalized.
We're proud to be unique.
Our home and lawn and pets
are stylish, distinctive - chic!

We watch the latest trends;
we don't fall behind.
Our fashion is always current;
impeccably aligned.

I'll never understand
why cavemen are so banal.
I'll bet a lack of diversity
was the cause of their downfall.
